SUMMARY

- DevOps Engineer with over 3 years of experience in automating and managing cloud infrastructure using **Terraform** and **AWS**. Specialized in provisioning scalable, secure environments across Dev, Val, and Prod for enterprise-grade applications in the MES (Manufacturing Execution System) domain.
- Skilled in implementing Infrastructure as Code (IaC), managing remote state with S3 and DynamoDB, and integrating monitoring and auditing tools like CloudWatch and CloudTrail. Proficient in version control using Git and GitHub and experienced in collaborating with cross-functional teams to troubleshoot, document, and optimize infrastructure workflows.

Skills And Certifications

Primary Skillsets

- **Cloud Infrastructure:** AWS
- **Infrastructure as Code:** Terraform
- **Monitoring & Logging:** AWS CloudWatch, CloudTrail
- **Incident & Change Management:** ServiceNow
- **Communication:** Client Interaction, Infra Team Collaboration

Secondary Skillsets

- **Version Control:** Git, GitHub
- **Configuration Management:** Ansible
- **CI/CD Tools:** Jenkins
- **Collaboration Tools:** Jira, Confluence, ServiceNow

Certification:

- AWS Certified Cloud Practitioner
- AWS Certified Solutions Architect – Associate

Professional Experience

Cognizant Technology Solutions

Feb 2022 – Present

Project: MES – Manufacturing Execution System

- Maintained and supported AWS infrastructure using Terraform across multiple environments (Dev, Val, Prod), ensuring high availability and security.
- Modified existing Terraform modules to implement change requests such as resizing EC2 instances, updating security groups, and adjusting EBS volumes.
- Managed Terraform remote state using S3 and DynamoDB, enabling consistent collaboration and preventing state conflicts across teams.
- Integrated AWS CloudWatch alarms and CloudTrail auditing into Terraform workflows to monitor system health and detect drift from manual changes.
- Used Git and GitHub for version control, following branching strategies and pull request workflows to manage infrastructure changes.
- Collaborated with application and cloud teams to troubleshoot provisioning issues and documented Terraform workflows for onboarding and knowledge sharing.
- Supported incident investigations and compliance audits by analyzing CloudTrail logs and aligning infrastructure with defined Terraform state.
- Contributed to CI/CD pipelines using Jenkins and Ansible, automating deployments and configuration management across MES environments.

EDUCATION

- Bachelor of Engineering (B.E.) – 2021
- Higher Secondary Certificate (HSC) – 2017
- Secondary School Certificate (SSC) – 2015
