SUMMARY

- **DevOps Engineer with 3 years of experience** in automating and managing AWS infrastructure using Terraform, GitHub, and CI/CD tools across multi-environment setups, ensuring scalability, security, and compliance.
- Proficient in developing reusable Terraform modules, integrating CloudWatch and CloudTrail for monitoring and auditing, and contributing to Jenkins and Ansible-based deployment pipelines for MES applications.

Skills And Certifications

Primary Skillsets

- **Cloud Infrastructure:** AWS
- **Infrastructure as Code:** Terraform
- **Monitoring & Logging:** AWS CloudWatch, CloudTrail
- **Incident & Change Management:** ServiceNow
- **Communication:** Client Interaction, Infra Team Collaboration

Secondary Skillsets

- **Version Control:** Git, GitHub
- **Configuration Management:** Ansible
- **CI/CD Tools:** Jenkins
- **Collaboration Tools:** Jira, Confluence, ServiceNow

Certification:

- AWS Certified Cloud Practitioner
- AWS Certified Solutions Architect – Associate

Professional Experience

Cognizant Technology Solutions

Feb 2022 – Present

Project: MES – Manufacturing Execution System

- Designed, maintained, and supported **AWS infrastructure using Terraform** across different environments, ensuring **high availability, scalability, and security compliance**.
- Developed and enhanced **reusable Terraform modules** for provisioning EC2, VPC, IAM, RDS, and EBS resources, enabling standardized deployments.
- Managed **Terraform remote state** using S3 and DynamoDB with state locking and versioning to ensure safe collaboration and prevent configuration drift.
- Implemented infrastructure changes such as **resizing EC2 instances**, updating security groups, and modifying EBS volumes through **version-controlled workflows**.
- Utilized **Terraform workspaces** to isolate environment-specific configurations, enabling consistent and safe deployments.
- Integrated **CloudWatch alarms** and **CloudTrail auditing** into Terraform workflows to monitor system health and detect unauthorized or manual changes.
- Followed **GitOps practices** using Git and GitHub for version control, including branching strategies, pull requests, and code reviews to manage infrastructure as code.
- Participated in **incident resolution, change management**, and **compliance audits** by aligning deployed infrastructure with Terraform-defined configurations and organizational standards.
- Collaborated with **application and cloud teams** to troubleshoot provisioning issues and supported onboarding by documenting Terraform workflows and module usage.
- Contributed to **CI/CD automation** using Jenkins and Ansible, assisting in deployment and configuration management across MES environments.

EDUCATION

- Bachelor of Engineering (B.E.) – 2021
- Higher Secondary Certificate (HSC) – 2017
- Secondary School Certificate (SSC) – 2015
